

"UNPARALLELED PERFORMANCE AND SAFETY UNDER PRESSURE!"[®]

NuQuip[®]
Live Swivels
Rotating Swivels

- Pressures up to 40,000 psi (2,758 bar)
- Free rotation on one plane while pressurized
- Use with a variety of fluids and gases
- Heat-treated stainless steel construction
- Special seals for harsh environments
- Manufactured to customer specifications

DESCRIPTION

The NuQuip[®] Live Swivel provides free rotation for hand tools or other apparatus when connected to a stationary connection, such as a hose, tube, or pipe line. The swivel is a single-plane pivoting device compatible with water, oil, or gas.

The Live Swivel is a heavy-duty, industrial grade fitting manufactured from stainless steel and heat-treated for hardness without compromising fracture toughness. Special high-pressure seals are available to withstand exposure in harsh working conditions. Special configurations will be considered upon request.

APPLICATION

The NuQuip[®] Live Swivel helps reduce kinked and twisted hoses when used in high-pressure environments with working pressures up to 40,000 psi (2,758 bar). Applications include hydrostatic testing, hydro-expansion, and water jet technology. The swivel conforms to military, nuclear, automotive, and aerospace specifications such as API, ASTM, ASME, ISO, DIN, and BS.

MATERIALS

Wetted Parts: Heat-treated, stainless steel

TOOL CONFIGURATION

Connection: Screw-on fitting
Rotation: Free rotation on one plane while pressurized

OPERATING CONDITIONS

Maximum Pressure: 40,000 psi (2,758 bar)
Temperature: 32° F to 120° F (0° C to 50° C)
Services: Water, oil, or gas

MAXIMUM PRESSURE
40,000 psi
2,758 bar

	16 NPT	10,000	689	5.48	139.2	0.50	12.7

Special Configurations Available Upon Request

FEATURES

- Free rotation in any direction on one plane while pressurized
- Full flow capability
- Precision-machined from heat-treated stainless steel
- Multiple seal options

BENEFITS

- Cuts down kinking and twisted hose lines
- Decreases cycle times
- Component can be used with different test media
- Seals to withstand exposure in harsh environments
