

*"UNPARALLELED PERFORMANCE AND SAFETY UNDER PRESSURE!"*®

## **UPDATED MESSAGE ABOUT THE CORONAVIRUS (COVID-19)**

March 25, 2020

As the world events continue to unfold around the Coronavirus (COVID-19) and cause global disruptions across the supply chain, we at Airmo, Incorporated are identified as an essential supplier for critical manufacturing and defense industrial base businesses. We will remain vigilant in monitoring this serious situation, while continuing to supply our customers with the products and services that are deemed necessary to operate and protect the country's infrastructure.

While we continue to serve customers, we will keep a watchful eye to the health and well-being of our employees. We will remain flexible in our ability to meet your urgent manufacturing needs, as demands rise in the coming weeks. However, our top priority is the health and well-being of our employees and customers as our facility continues operations.

We will closely follow the Centers for Disease Control (CDC), the World Health Organization (WHO), and state health department and government guidelines to protect the health and safety of our workforce and families, customers, suppliers, friends and neighbors during the coronavirus outbreak. Airmo employees are encouraged to report any contact with someone testing positive for the coronavirus or experiencing symptoms of COVID-19 to their local health facility immediately.

Airmo requires all employees and visitors to stay home when sick. Should an employee become ill and show symptoms of the coronavirus, or been exposed to someone who is ill, they will be directed to self-quarantine for the recommended period. To avoid illness, we are encouraging our employees to wash their hands frequently, wipe down surfaces, avoid touching their face, practice good hygiene habits, and use technology and social distancing when communicating with coworkers. We are also limiting employee travel and customer visits at this time in full accordance with CDC recommendations.

As we all face this global challenge together, we are thankful for your support and trust in Airmo Inc. Pressure Technologies and look forward to working with you.

Respectfully,
